- 0/ drawn with 18mm material. Quality plywood recommended
- 1/ for Mark Audio Pluvia 11
- 2/ line all interior faces with damping material: SAE F10 felt, Ultratouch, acoustic fiberglass, or similar
- 3/ don't forget to relieve the back of the driver cutout with a chamfer or roundover
- 4/ bracing not shown but recommended. Braces should run in the direction of the line
- 5/ beveling front vertical edges recommended
- 6/ impedance is fairly flat & non-reactive, so suitable for high output impedance amplifiers such as most SETs
